

OptiBond® Solo Plus™. Total-etch. Dual-cure. Great bonds.

BONDING AGENT

Indirect to Dentin Shear Bond Strength (MPa) of 5th-Generation Adhesives

Data on file. Trademarks are property of their respective owners.

FEATURES

Filled technology
Fluoride release
Ethanol based
Unidose delivery

BENEFITS

Strong bond
Less polymerization shrinkage
Less microleakage
Less sensitivity
Use in moist or dry environment

The strength behind your restorations.

- **Clinically proven.** Universally accepted, industry-standard products. Proven performance worldwide.
- **Strong, durable bond.** 15%-filled material penetrates and reinforces dentin tubules to provide a long-lasting bond.
- **Delivery options.** Choose 5 ml bottle or convenient Unidose® delivery.
- **Dual-cure option.** OptiBond Dual Cure Activator provides added assurance of a total cure if the area is not accessible to adequate light.

OptiBond Solo Plus. Make our bond strength yours.

When it comes to choosing a clinically proven bonding agent, OptiBond Solo Plus is the gold standard, employing a single-component primer/adhesive in combination with Kerr's phosphoric acid gel etchant.

OptiBond Solo Plus is 15%-filled with the same 0.4 micron filler found in Kerr's industry-recognized composites. The filler reinforces the hybrid zone and the dentin tubules, creating a true structured bond of extraordinary strength not found in conventional, unfilled adhesive systems. OptiBond Solo Plus's durable chemical and micro-mechanical bonds protect against microleakage and decrease polymerization shrinkage to ensure superior marginal integrity.

Indications: Direct composite to enamel or dentin, composite to composite, composite to porcelain or metal, amalgam sealing, as an adhesive in post and core applications, indirect bonding of veneers, inlays, onlays and crowns.

Order Information

31514 OptiBond Solo Plus Bottle Kit

Contains: 2 Bottles OptiBond Solo Plus (5 ml each), 1 Syringe Gel Etchant (3 g), 20 Gel Etchant Syringe Tips, 25 Four-Cavity Mixing Wells, 100 Applicator Tips

29682 OptiBond Solo Plus Unidose® Kit

Contains: 100 OptiBond Solo Plus Unidose Pouches (0.10 ml each – 10 ml total), 1 Syringe Gel Etchant (3 g), 20 Gel Etchant Syringe Tips, 100 Applicator Tips

31736 OptiBond Solo Plus Dual Cure Activator Bottle Kit

Contains: 1 Bottle OptiBond Solo Plus (5 ml), 1 Bottle OptiBond Solo Plus Dual Cure Activator (5 ml), 1 Syringe Gel Etchant (3 g), 20 Gel Etchant Syringe Tips, 25 Mixing Wells, 100 Applicator Tips

Refills

31513 OptiBond Solo Plus (5 ml bottle)

29669 OptiBond Solo Plus Unidose (pkg of 100 – 10 ml total)

31304 OptiBond Solo Plus Dual Cure Activator (5 ml bottle)
