WHAT IS  
**YOUR**  
FAVORITE  
FLAVOR?

Everything you want in a fluoride varnish.  
**At last!**

The fluoride release and uptake you need.  
The great taste and smooth, natural look  
and feel your patients want.

Now available in more fun flavors!

Enamelast fluoride varnish is a flavored, xylitol-sweetened 5% sodium fluoride in a resin carrier.

## Everything You Need

### EFFECTIVE FORMULA

Enamelast fluoride varnish has been proven to have both a high fluoride release and a high fluoride uptake when compared to similar products.<sup>1</sup> The high release rate indicates the amount of fluoride that's available in each treatment, and the high uptake reflects the efficient absorption of fluoride ions.

### PATENTED ADHESION

Enamelast varnish features a patented adhesion-promoting agent that enhances retention, which means your patients can receive the full benefits of the varnish.

### CONVENIENT DELIVERY

Choose between two delivery options: unit-dose blister packs or a syringe and tip delivery system with enough varnish for two to four patients.

### INCREDIBLE VALUE

Enamelast varnish isn't just effective—it's also economical, giving you exceptional value for your time and money.

## Everything Your Patient Wants

### SMOOTH TEXTURE

The smooth feel of Enamelast varnish will make your patients want to leave it in place.

### NEARLY INVISIBLE APPEARANCE

Enamelast varnish is nearly invisible on the tooth.

### GREAT FLAVOR

Enamelast varnish comes in four great flavors—Walterberry and delicious new Orange Cream, Bubble Gum, and Cool Mint! Every flavor is certified **NUT FREE** and **GLUTEN FREE**.
